1 General Information

1.1 Introduction

This handbook is meant to guide the Mixed Team event at the WCh2022.

5 Excerpt from SC2023

5.1 Regulations for Mixed Team competition (SC 4.6)

Team competitions are possible.

A team in the mixed competition contains the individual categories:

Duo team: Men/Women or Mixed

Fighting Men -69kg, -85kg and +85kg
Women -52kg, -63kg and +63kg

Jiu-Jitsu Men -69kg, -85kg and +85kg
Women -52kg, -63kg and +63kg

After the agreement with the JJIF Technical Commission and the JJIF Board, the organiser might choose different participating categories and disciplines. Those must be noted in the outlines of the event. Otherwise, the classes, as mentioned above, are valid.

The rules for the respective disciplines are valid in the team competition. Rules that differ for the team completion are described in the following:

5.1.1 Athletes per Individual Category (SC 4.6.1)

Each team shall register up to two athletes per category. The athletes can compete in the registered category or one weight category higher in the same discipline.

An athlete may be entered in more than one discipline but not in more than one weight category¹

5.1.2 Weight-in regulations (SC 4.6.2)

If the team competition is held as part of an Int Event with individual competitions, athletes that already weight-in for the individual competition shall not weight-in again for the team competition.

Additional athletes (who did not compete in the individual event) may be entered in the team competition but will weigh in the afternoon/evening before the team competition. The same is true for athletes that compete in a couple discipline (Duo & Show) and are entered into an individual discipline (Fighting & Jiu-Jitsu) in the team.

¹. For example, an athlete can be entered in Fighting -52kg, in Jiu-Jitsu -52kg and Duo, but not in Fighting -52kg and Fighting -63kg. Even though she will be automatically entered in the 63kg, she cannot go up to +63 kilograms.

5.1.3 Entering more than one individual category per match (SC 4.6.3)

One competitor can be entered in all disciplines, but only in one weight category per match². The entered categories per match can be different between individual matches³.

5.1.4 Fight time (SC 4.6.4)

The fight time in the discipline Fighting is reduced to two minutes. The fight time in the discipline Jiu-Jitsu is reduced to four minutes.

5.1.5 Challenge (SC 4.4.2)

In the case of the mixed team competition (Section **Error! Reference source not found.**), each team will be allowed to have one negative challenge per discipline⁴. The (negative) challenges will be marked on the accreditation card of the head coach and on a form at the referee table. Se regulation for the final block applies here too.

² For example, an athlete registered in -52kg can compete in Fighting -52kg and Duo but not in Fighting -52 and Fighting -63 in the same match

³ For example, an athlete registered in Fighting -52kg can compete in one match Fighting -52kg and in the following match Fighting -63kg

⁴ usually Fighting, Duo and Jiu-Jitsu

6 Excerpt from Invitation WCh2022 Team Competition

- Participating categories (in agreement with the OSC § 1.3.5)
A team in the mixed competition contains the individual categories:
 - Duo team: Men, Women or Mixed (one team)
 - Fighting Men -69kg, -85kg and +85kg
Women -52kg, -63kg and +63kg
 - Jiu-Jitsu Men -69kg, -85kg and +85kg
Women -52kg, -63kg and +63kg
- Each JJNO can adopt up to two athletes (a duo couple will count as one athlete) from different JJNOs. All members of the team will get physical medals, but the medal count in the medal tally will be given to the main JJNO
- Seven (7) categories will compete in each match. The seven categories will be chosen in the following way:
 - Matching categories: Categories which both teams can cover are automatically set. Each team can choose an equal number to drop if those are more than seven and an equal amount. In case of an unequal amount, the remaining category will be determined by random draw will.
 - Choice of teams: The remaining categories will be chosen a category fitting for them with an equal number of selections per team
 - Random draw: If there is still a category open, a random draw will select the missing category.
- The jiu-jitsu athletes that have their regular weigh-in after the team competition need to weigh in before the first day of the team competition. They will get a 10% tolerance on their weight for the team competition. If an athlete has competed in the fighting system before, they do not need to weigh in to compete in Jiu-Jitsu for a team.
In any case, athletes will always need to weigh in for their regular (individual) competitions, regardless of whether they are in a team.
